Project Child Find

Parents of Northfield who are concerned that their school age child (3 years to 21 years) may have special needs can receive assistance from the school district's Child Study Team. In addition, the Northfield City School District organizes a Child Find campaign to locate and provide services for children ages three to five who may have physical, cognitive, language or emotional difficulties. Information also may be obtained on how and where to receive services for children with special needs who are younger than three.

Professional guidance, assessment and an educational program are all available free for eligible children. For more information contact the Northfield City School District Child Study Team office at 407-4012.
